## PROFESSIONAL SUMMARY

Innovative and detail-oriented Front-End Developer with 3 years of experience in designing and developing dynamic web applications. Skilled in translating design wireframes into high-quality code and optimizing application performance to ensure a seamless user experience.

## SKILLS :

- |              |                |                 |                |
|--------------|----------------|-----------------|----------------|
| • HTML5      | • Next JS      | • TypeScript    | • Debugging    |
| • CSS3       | • React Router | • Redux Toolkit | • Git & Github |
| • JavaScript | • Material UI  | • React Hooks   | • Context API  |
| • React JS   | • Tailwind CSS | • Webpack       | • Unit Testing |

## WORK EXPERIENCE

Belgium Webnet Inc

Mar 2023 - Present

Front End Developer(React JS)

📍 Indore

- Proficient in **JavaScript** with **TypeScript**, specifically **Next JS**, for web app development with **CSR and SSR**, prioritizing optimal performance. Used **Redux Toolkit** extensively
- Design and develop user-friendly and visually appealing interfaces for an e-commerce platform. Implement key features such as product listings, shopping carts, user authentication, pagination, infinite scroll and **checkout processes**, etc.
- Integrate and maintain various **payment gateways** (e.g., PayPal, Stripe, Klarna, Square) to ensure secure and seamless transactions by ensuring compliance with security standards and best practices for handling payment data.
- Optimize the application for maximum speed and scalability, focusing on load times, responsiveness, and overall performance by implementing best practices for front-end development, including code splitting, **lazy loading, and caching**.
- Responsible for developing the key feature called **Stud-builder** for a jewelry e-commerce app, which enables users to customize and order studs according to their preferences
- Engineered and tested react components and react hooks, and managed forms, validations, and events which resulted in **30% increase** in overall development efficiency and contributed to **40% decrease in bug occurrences**

Witmates Technologies Pvt Ltd

Feb 2022 - Mar 2023

Front End Developer (React JS)

📍 Indore

- Work closely with back-end developers to integrate **RESTful APIs** and ensure seamless data flow between front-end and back-end systems.
- Reduced defect resolution time by 30%, resulting in faster issue resolution and improves user satisfaction
- Participated in agile development processes, including sprint planning, stand-ups, and retrospectives.
- Implement **lazy loading, caching**, and other performance enhancements to improve load times and user experience.
- Write **unit tests, integration tests**, and end-to-end tests to ensure code quality and reliability.

## PROJECTS

Showcase Demo BW (Ecommerce Application) [🔗 LIVE-URL](#)

- Developed Showcase demo BW ecommerce web application with feature such as **authentication, product filtering, cart management**, pagination, infinite scroll and order management
- Increased user engagement by 30 % through the implementation of features such as address management which results in enhancing overall user experience

Showcase Demo B2B (Ecommerce Application) [🔗 LIVE-URL](#)

- Successfully delivered B2B websites to 15+ clients, showcasing exceptional performance, speed, and overall shopping experience.

Dalle-E-Free (AI Image Generation Tool) [🔗 LIVE-URL](#)

- Implemented OpenAI and Stable Diffusion API to automate image generation based on user prompts, resulting in a 40% reduction in manual design tasks and increasing project turnaround efficiency by 30%.

## EDUCATION

Front End Web Development Bootcamp (Neog Camp)

Feb 2021 - Mar 2022

Bachelors of Engineering

Apr 2015 - May 2019
